

YOUR ACTIONS ARE LOUDER AT HOME

These days, families are faced with exposure to actions that can negatively impact the health of the home. As a parent or primary caregiver, create a safer home for youth by demonstrating responsible behaviors around alcohol, tobacco, and other substances.

The Montgomery County Prevention Coalition developed the **Safe Homes Program** to help parents and caregivers like you reflect on behaviors surrounding drugs and alcohol and start important conversations with children in your life. This county-wide initiative offers free tools and resources for building a space where kids feel secure and supported.

Remember: You have the power to set positive examples for the children in your life, and you're not alone!

**CONSIDER
YOUR ACTIONS**

**START THE
CONVERSATION**

**TAKE THE SAFE
HOMES PLEDGE**

Visit our website to get free resources and take the pledge, joining in with other parents around Montgomery County.

Let's work together to ensure the children in our community have the support they need to thrive!
